

CLINICAL IMAGING RESEARCH CENTRE SINGAPORE

A joint venture between the Agency for Science, Technology And Research (A*STAR)
and the National University of Singapore (NUS)

The A*STAR-NUS Clinical Imaging Research Centre (CIRC) Presents Weekly Journal Club/Lab Meeting

July, 2015

Time: 2:00pm – 3:00pm, Wednesday

Venue: CIRC Conference Room
Clinical Imaging Research Centre (CIRC)
Centre for Translational Medicine (MD6)
14 Medical Drive, #B1-01
Singapore 117599

Date	Speakers	Topic
1-Jul-15	Wang Jiesen	Effect of Dexamethasone on Brain Function in Healthy And Leukaemia Patients
8-Jul-15	No speaker	
15-Jul-15	David Townsend	Society of Nuclear Medicine and Molecular Imaging Annual Meeting 2015
22-Jul-15	Katja Boodea	The Concept of Quality Assurance
29-Jul-15	Alex Schäfer	Cerebral Cortex Parcellation by Fusion of Local and Global Functional Connectivity Features

CLINICAL IMAGING RESEARCH CENTRE SINGAPORE

A joint venture between the Agency for Science, Technology And Research (A*STAR)
and the National University of Singapore (NUS)

Speaker Background

Wang Jiesen:

Jiesen obtained her MSc in electrical engineering from National University of Singapore and joined CIRC since June 2014. Her work at CIRC is mainly focused on resting state connectivity analysis of fMRI Brain image.

David Townsend:

Professor
Director, Clinical Imaging Research Centre

Katja Boodea:

Previously, Katja has had more than 10 years of experience in Quality Assurance across the pharmaceutical and medical device industry in Germany, Australia and Singapore in compliance with GMP, AABB regulations, ISO 9001 and ISO 13485. This included setting up two GMP facilities from scratch.

Alex Schäfer:

Alex studied Computer Science at the University of Jena, Germany. During his PhD he analysed brain networks derived from fMRI data at the MPI for Human Cognitive and Brain Sciences in Leipzig, Germany. Currently he is doing his postdoctoral studies on functional brain parcellations at the National University of Singapore.
